## PBS LEARNING MEDIA

*What if your school's resources were  
as unlimited as a student's mind?*

*They can be with PBS LearningMedia!*

PBS LearningMedia is expressly designed for educators in grades PreK-12. This **free** service brings together the best of public media digital content from award-winning programs like *NOVA*, *Nature*, *FRONTLINE*, *American Experience*, and *Sid the Science Kid*, along with content from 90+ contributors, including the National Archive, National Public Radio, and The Learning Registry.

### KNPB PBS LearningMedia offers:

Over 120,000+ digital resources:

- 3-5 minute video clips
- Interactive games, maps, and exploration activities
- Ready to use lesson plans
- Teacher productivity tools
- Professional development
- Audio, images, and much more

Classroom resources aligned to National, State, and Common Core Standards.  
Content that can be saved, tagged, and easily shared with colleagues and students.

### Watch Video

PBS LearningMedia video clips include background essays, related content, and discussion questions.

### Lesson Plans

PBS LearningMedia offers lesson plans that incorporate video, interactives, and printable materials for use in the classroom.

### Supplement Student Instruction

PBS LearningMedia class pages allow a teacher to create unique resource collections that may be accessed by students through the Internet. Videos and interactives may be used at home for review as homework. If a student has been out-of-town or homebound, PBS LearningMedia can help those students keep up with class instruction.

### Productivity Tools

Create a personalized learning experience with our new suite of productivity tools, including a Lesson Builder, Storyboard, and Quiz Maker. These tools enable teachers and students to become digital storytellers with access to video, audio, interactives, and images.
